REGIONAL AUTOMOTIVE CENTER

The advanced technologies of today's vehicles have put skilled technicians in high demand. A technical education from TCC's Regional Automotive Center will give you the experience and expertise desperately needed by manufacturers, dealerships and repair shops across the nation.

With programs in automotive, diesel, collision, and marine technology, the RAC curriculum draws from a combination of in-depth instruction, hands-on work and live shop experience. Paid internships and real world work are cornerstones of the program. Students are trained on the latest equipment at the forefront of industry trends in our state-of-the-art facility in Chesapeake.

AUTOMOTIVE TECHNOLOGY
Hands-on experience in our state-of-the-art labs will build your expertise in every aspect of automotive maintenance and repair. This program also prepares you for Automotive Service Excellence (ASE) certification exams.

COLLISION REPAIR TECHNOLOGY
Prepare for an entry-level position at a collision repair facility restoring dented, scratched, and damaged vehicles. Learn from I-CAR and ASE-certified instructors while you train to earn your I-CAR ProLevel 1 and 2 industry certifications.

DIESEL TECHNOLOGY
Certified instructors ensure you get the training you need on diesel engines, hydraulics, electronics, suspensions, brake systems and engine rebuilding. This program also prepares you for Automotive Service Excellence (ASE) certification exams.

MARINE TECHNOLOGY
Gain expertise in maintaining, diagnosing, and repairing marine inboard and outboard engines while you receive Volvo-Penta and Yamaha certifications as part of your curriculum!

MANUFACTURER PARTNERSHIPS
Earn while you learn with paid internship programs that allow you to gain real world experience and manufacturer certifications from Honda, Toyota, Ford, Fiat, Chrysler, and Subaru – all while you work towards your degree!
